

DECLARATION OF BENEFICIARIES

By signing this document each of the undersigned does hereby state and attest to the following:

1. I am aware of the original intent of the settlers of the United Effort Plan Trust (the "UEP"), and have consecrated my time, talents, materials, monies, and property to the Fundamentalist Church of Jesus Christ of Latter Day Saints (the "Church"). I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlers, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Harker Farm, and Berry Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Merlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

DECLARATION OF BENEFICIARIES

By signing this document each of the undersigned does hereby state and attest to the following:

1. I am aware of the original intent of the settlors of the United Effort Plan Trust (the "UEP"), and have consecrated my time, talents, materials, monies, and property to the Fundamentalist Church of Jesus Christ of Latter Day Saints (the "Church"). I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlors, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlors of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlors. DECLARATION OF BENEFICIARIES

By signing this document each of the undersigned does hereby state and attest to the following:

1. I am aware of the original intent of the settlers of the United Effort Plan Trust (the "UEP"), and have consecrated my time, talents, materials, monies, and property to the Fundamentalist Church of Jesus Christ of Latter Day Saints (the "Church"). I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlers, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Harker Farm, and Berry Knob Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Merlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Marker Fares, and Berry Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Merlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

DECLARATION OF BENEFICIARIES

By signing this document each of the undersigned does hereby state and attest to the following:

1. I am aware of the original intent of the settlers of the United Effort Plan Trust (the "UEP"), and have consecrated my time, talents, materials, monies, and property to the Fundamentalist Church of Jesus Christ of Latter Day Saints (the "Church"). I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlers, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Harker Farm, and Berry Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Merlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.

By signing this document each of the undersigned does hereby state and attest to the following:

1. I am aware of the original intent of the settlers of the United Effort Plan Trust (the "UEP"), and have consecrated my time, talents, materials, monies, and property to the Fundamentalist Church of Jesus Christ of Latter Day Saints (the "Church"). I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlers, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Harker Farm, and Berry Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Merlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Harker Farm, and Berry Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Merlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

DECLARATION OF BENEFICIARIES

By signing this document each of the undersigned does hereby state and attest to the following:

1. I am aware of the original intent of the settlers of the United Effort Plan Trust (the "UEP"), and have consecrated my time, talents, materials, monies, and property to the Fundamentalist Church of Jesus Christ of Latter Day Saints (the "Church"). I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlers, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Harker Farm, and Berry Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Merlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlers, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Harker Farm, and Berry Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Merlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

DECLARATION OF BENEFICIARIES

By signing this document each of the undersigned does hereby state and attest to the following:

1. I am aware of the original intent of the settlers of the United Effort Plan Trust (the "UEP"), and have consecrated my time, talents, materials, monies, and property to the Fundamentalist Church of Jesus Christ of Latter Day Saints (the "Church"). I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlers, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Hacker Farm, and Berry Knoll Farm without the approval of the Church.

DECLARATION OF BENEFICIARIES

By signing this document each of the undersigned does hereby state and attest to the following:

1. I am aware of the original intent of the settlers of the United Effort Plan Trust (the "UEP"), and have consecrated my time, talents, materials, monies, and property to the Fundamentalist Church of Jesus Christ of Latter Day Saints (the "Church"). I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlers, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Hacker Farm, and Berry Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Marlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

UEP Declaration of Beneficiaries Petition

DECLARATION OF BENEFICIARIES

By signing this document each of the undersigned does hereby write and attest to the following:

- I am aware of the original intent of the writers of the United Effort Plan Trust (the "UEP"), and have unreservedly accepted, retained, controlled, received, and property to the Pentecostal Church of Jesus Christ of Latter Day Saints (the "Church"). I am a voluntary member of the Church which is an association formed by the mutual consent to promote our common objectives to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that would not "just waste and waste".
- As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the State of Utah and Arizona which have taken the management of the UEP away from the Church which acts in contrary to the intent of the authors, and which prevents the UEP from meeting its "just waste and waste".
- I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which changed the intent of the authors of the UEP. (Below the cover approval of Special Phelaney has violated his Phelaney duties to each member of UEP, including, wasting the assets of the Trust and spending the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.)
- The Special Phelaney has a conflict of interest because he is receiving payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the interests of the authors. The Special Phelaney has made representations to the court about his intentions to pay himself at the expense of protecting the interests of the beneficiaries.
- I am opposed to the sale of any vested or unvested UEP property including, Sacred Sites, Master Plans, and Every Good Thing without the approval of the Church.
- I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Martin Jessop, and Tim Johnson. I join in their requests to the Court as they represent my concerns and interests.
- I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

DECLARATION OF BENEFICIARIES

By signing this document each of the undersigned does hereby state and attest to the following:

1. I am aware of the original intent of the settlers of the United Effort Plan Trust (the "UEP"), and have consecrated my time, talents, materials, monies, and property to the Fundamentalist Church of Jesus Christ of Latter Day Saints (the "Church"). I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlers, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Hacker Farm, and Benny Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Morlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

DECLARATION OF BENEFICIARIES

By signing this document each of the undersigned does hereby state and attest to the following:

1. I am aware of the original intent of the settlers of the United High Plateau Trust (the "UEP"), and have consecrated my time, talents, materials, monies, and property to the Fundamentalist Church of Jesus Christ of Latter Day Saints (the "Church"). I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlers, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Harker Farm, and Berry Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Merlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlers, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Marker Plots, and Berry Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Merlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

DECLARATION OF BENEFICIARIES

By signing this document each of the undersigned does hereby state and attest to the following:

1. I am aware of the original intent of the settlers of the United Effort Plan Trust (the "UEP"), and have consecrated my time, talents, materials, monies, and property to the Fundamentalist Church of Jesus Christ of Latter Day Saints (the "Church"). I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlers, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.

DECLARATION OF BENEFICIARIES

By signing this document each of the undersigned does hereby state and attest to the following:

1. I am aware of the original intent of the settlors of the United Effort Plan Trust (the "UEP"), and have consecrated my time, talents, materials, monies, and property to the Fundamentalist Church of Jesus Christ of Latter Day Saints (the "Church"). I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlors, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlors of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlors. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Harker Farm, and Berry Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Morlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlers, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Harker Farm, and Berry Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Merlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlers, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Harker Farm, and Berry Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Merlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

DECLARATION OF BENEFICIARIES

By signing this document each of the undersigned does hereby state and attest to the following:

1. I am aware of the original intent of the settlers of the United Effort Plan Trust (the "UEP"), and have consecrated my time, talents, materials, money, and property to the Fundamentalist Church of Jesus Christ of Latter Day Saints (the "Church"). I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlers, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlers of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlers. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Harker Farm, and Berry Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Merlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts in contrary to the intent of the settlors, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlors of the UEP. I believe the court-appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is paying payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlors. The Special Fiduciary has made misrepresentations to the court about his transactions in order to pay himself at the expense of protecting the interests of the beneficiaries.
5. I am opposed to the sale of any sacred or consecrated UEP Property including, Sacred Sites, Harker Farm, and Berry Knoll Farm without the approval of the Church.
6. I am aware of and agree with the requests made to the Third District Court by Willie Jessop, Merlin Jessop, and Dan Johnson. I join in their requests to the Court as they represent my concerns and interests.
7. I have personal knowledge of the facts stated herein and make this declaration under penalty of perjury.

DECLARATION OF BENEFICIARIES

By signing this document each of the undersigned does hereby state and attest to the following:

1. I am aware of the original intent of the settlors of the United Effort Plan Trust (the "UEP"), and have consecrated my time, talents, materials, monies, and property to the Fundamentalist Church of Jesus Christ of Latter Day Saints (the "Church"). I am a voluntary member of the Church which is an association formed by our mutual consent to promote our common objective to ensure that the UEP is administered in compliance with constitutional requirements and in a manner that meets our "just wants and needs".
2. As a member of the Church I am a beneficiary of the UEP and have seen the effects of the administration of the UEP by the States of Utah and Arizona which have taken the management of the UEP away from the Church which acts are contrary to the intent of the settlors, and which prevents the UEP from meeting my "just wants and needs".
3. I am directly affected by how the UEP is administered, which was always intended to be managed by religious principles and not by secular business judgments which disregard the intent of the settlors of the UEP. I believe the court appointed Special Fiduciary has violated his fiduciary duties to me in a number of ways, including, wasting the assets of the Trust and operating the UEP in a manner that interferes with my right to privacy and to freely worship. If he is allowed to continue this course it will cause irreparable harm to me, the UEP and my Church.
4. The Special Fiduciary has a conflict of interest because he is pursuing payment for himself at the expense of my interests as a beneficiary, the best interests of the Church and UEP and the intentions of the settlors.
